CERARL ANTIMICROBIAL WALL PANEL

IMPREGNATED WITH SILVER ION JAPAN TECHNOLOGY

Create a connection with infinite possibilities and transform spaces into magnificent masterpieces.

CERARL fibreglass wall panels provide antimicrobial properties attributable to the use of Silver Ion Technology, which inhibits microbes on contact and ensures a safe environment for all.

This revolutionary product is highly recommended for use in any setting imaginable, including commercial, residential, childcare, and health establishments.

CERARL CELLENT

NEW

Elevate and reach your design potential with our **NEW CERARL CELLENT** collection.

An extraordinary product that reflects the future of wall surface panels through the use of new, innovative material and construction techniques.

Design, technology, and functionality are all integrated to create a high-dimensional, non-combustible decorative panel that captures the details of each piece so beautifully and realistically.

DISCLAIMER & WARRANTY

Clients are advised to reconfirm the selected designs, corresponding colour codes and material attributes with ADMIRA's representatives prior to ordering. ADMIRA will not be responsible for any claims resulting in errors in this catalogue, or from the sample selection process. ADMIRA ensures that its surface products are reasonably free of defects upon delivery with compliance to its strict material properties and quality controls. Customers are advised to examine the CERARL quality before installation for any noticeable manufacturing defects. Should there be any inherent defects not due to mishandling or improper installation, ADMIRA's liability will be limited to the replacement of products only. Colours and patterns of the panels in this catalogue and on our digital platforms may vary from actual CERARL pieces.
