MOMENT II- THE EMOTION OF DESIGN

Admira's Moment II collection embraces emotive interior design, where each texture, colour and pattern is chosen to evoke warmth, calm or curiosity. From wood grains to expressive stones, every surface helps shape interiors with a deeply human and emotional touch.

YOUR INTERIOR DESIGN JOURNEY BEGINS NOW

Begin your design journey with our latest laminate catalogue, a thoughtfully curated selection made to spark creativity and elevate your ideas. From small accents to complete transformations, our colours, textures, and patterns set the perfect tone for any space.

SOLID
THE MOMENT OF
PURE EXPRESSION

The Moment captures the essence of solid colour with purity and precision. This collection distils design to its most expressive form, bold, clean and enduring in appearance. Perfect for creating spaces that speak through colour alone.

AUTHENTIC
GRAINS BRING
DEPTH AND
CHARACTER.

WOODGRAIN BEAUTY THAT FLOWS WITH NATURAL GRACE

Each design brings warmth, depth, and quiet elegance.
Let natural textures and tones inspire interiors that
feel grounded, personal, and beautifully connected
to the calming essence of nature.

Traceless®

FINGERPRINT RESISTANT &
ANTIMICROBIAL LAMINATE

Traceless is a high-performance laminate collection designed to resist fingerprints and inhibit microbial growth. It keeps surfaces clean, hygienic, and easy to maintain. Certified with a Class 0 fire rating, it is ideal for both residential and commercial spaces that demand style and safety. Available in elegant solid colours and refined woodgrains.

This range is best viewed in actual size.

URBAN CONCRETE BRINGS EMOTION TO INDUSTRIAL SURFACES

Explore the Urban Concrete Collection where laminates capture concrete's raw charm in brushed, polished, and mini-screed textures. In soft neutral tones, these versatile surfaces complement modern interiors with depth and understated sophistication.

COLLECTION
THE MOMENT OF
VISUAL INTRIGUE

A celebration of form, contrast and imagination, where every surface tells a story. Fusing premium aesthetics with everyday functionality, the designs bring depth, character and performance to modern interiors.

EFFORTLESS ELEGANCE, EVERYDAY ENDURANCE

Experience refined performance with our Premium Laminate in the Xtreme and Noir series. Its ultra-matte, velvet touch resists scratches, fingerprints, and stains, perfect for high-use spaces needing durability with understated elegance.

**APOD**Artistic Panels
On Demand

A REVOLUTIONARY COLLECTION

FREEDOM TO DESIGN

TO EXPRESS CREATIVITY

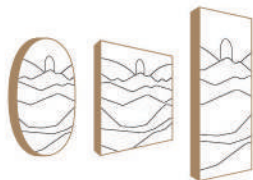

A revolutionary collection, giving architects and designers the tools they need to express their creativity and turn their visions into reality.

With APOD, you have the freedom to express graphics on any carpentry surface. This includes gradients, customized artworks, and unique patterns. Showcase your originality with designs that will leave an impression.

CUSTOM LAMINATES

Limitless single panels

9mm Plywood / 18mm Door Panel

Limitless Sizes

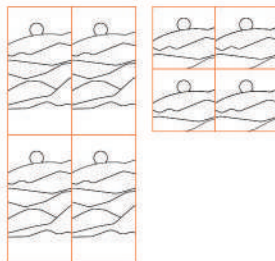

Custom laminates that are smaller than 4by8 are produced and supplied on 9mm plywood and can also be produced as 18mm door panels.

Photo Quality

Ensure file is high-resolution 300 dpi.

REPEATING PATTERNS

Duplicate and multiply any way

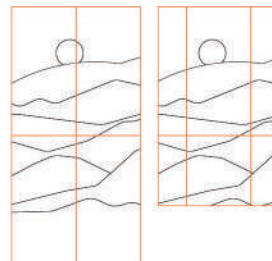

No MOQ

Minimum quantity is 1 sheet in 4ft by 8ft. Laminate only as a sheet.

COMBINED PICTURE

Combine panels or several door panels

Fully Customisable

Take your vectorised graphics and apply it to any of the above configurations.

CARE & CLEANING GUIDE FOR HIGH PRESSURE LAMINATE (HPL)

High Pressure Laminate (HPL) is a durable and low-maintenance surface material widely used in residential, commercial, and hospitality interiors. With proper care, HPL surfaces can retain their appearance and performance for years.

DO'S	DON'TS
Use soft, damp cloths	Use steel wool or abrasive scrubbers
Use mild soap or laminate-safe cleaner	Use concentrated bleach or paint thinners
Wipe spills immediately	Allow water to pool at seams or edges
Use heat-resistant pads	Place hot cookware directly on the surface

ENHANCED HYGIENE WITH ANTIMICROBIAL PROTECTION

Most of our products are designed with built-in antimicrobial protection, effectively reducing the growth of microbes on the surface to support a more hygienic environment. This feature is certified under the Industrial Standard JIS Z 2801, ensuring reliable performance and quality you can trust for both residential and commercial applications.

PRODUCT CERTIFICATIONS

Admira's products are engineered to meet the highest international standards for quality, safety, and environmental responsibility. Each product undergoes stringent testing to ensure lasting performance, regulatory compliance, and responsible sourcing. Our key certifications include:

EN 438 – European Standard for High-Pressure Decorative Laminates

This certification defines essential performance criteria such as resistance to abrasion, impact, heat, moisture, and staining. Products certified under EN 438 deliver proven durability, making them ideal for demanding interior environments.

Fire-Retardant – BS 476 Part 6 & 7, Certified Class 0 Fire Rating

Tested in accordance with British Standard BS 476 (Part 6: fire propagation; Part 7: surface flame spread), our fire-retardant laminates achieve a Class 0 rating—the highest under UK regulations—ensuring superior fire safety for both residential and commercial applications.

Environmental Certification

Admira's laminates are certified under the Singapore Green Label, Green Building Certification, and the Forest Stewardship Council (FSC). These accreditations reflect our commitment to sustainable practices—ensuring low VOC emissions, supporting green building standards, and promoting the use of responsibly sourced materials from well-managed forests.

DISCLAIMER & WARRANTY

Colours and patterns of the actual laminate piece may vary from those presented in this catalogue and on our digital platforms. Our warranty is extended solely to the original purchaser of the product. We strongly advise all customers to inspect the product thoroughly prior to installation. This warranty covers only manufacturing defects and is valid for a period of one year from the date of purchase. It does not cover damage resulting from misuse, improper installation, or external factors. Coverage is limited strictly to the replacement of the defective product.
